Objective:
The primary goal of the conference is to present the state-of-the-art scientific results, encourage academic and industrial interactions, and promote collaborative research and developmental activities in pattern recognition, machine Intelligence and related fields involving scientists, engineers, professionals, researchers and students from India and abroad. The conference is held every two years to make it an ideal platform for people to share their views and experiences.

Topics:

- Image Processing
- Data Mining & Knowledge Discovery
- Fuzzy Sets
- Pattern Recognition
- Computer Vision

- Particle Swarm & Ant Colonies
- Artificial Neural Networks
- Web and Text Mining

- Fractals
- Soft Computing
- Evolutionary Computing

- Machine Learning
- Rough Sets
- Computational Intelligence

- Remote Sensing
- Case Based Reasoning
- Wavelets

- Hardware for PR & MI
- Medical Imaging
- Content Based Image Retrieval

- Real-world Applications
- Hybrid Systems
- Information Retrieval

- Computational Neuroscience
- Steganography & Digital Watermarking
- Uncertainty Analysis

- Networks
- Fuzzy Sets
- Biometric

- Machine Learning
- Fractals
- Computational Neuroscience

- Case Based Reasoning
- Medical Imaging
- Web Intelligence

- Particle Swarm & Ant Colonies
- Fractals
- Remote Sensing
